

Our flagship library system— **SIMA Camelot Online**

A bright future awaits law libraries—

—Manage all of your library operations **via the Web**

SIMA Camelot Integrated Library System

- **SIMA Camelot Online**—A TOTAL Web solution, accessible from ANY Internet-connected computer, ANYTIME, ANYWHERE, by ANY authorized firm employee (*no other communications program is necessary, and no local installation, maintenance or updating is ever required!*)
- Even better than the popular, widely-praised previous version of **SIMA Camelot**—
 - *Advanced searches, local printing control, many other new features and capabilities plus more that have been continually incorporated as suggested by customers;*
 - *A familiar Windows interface that is highly configurable;*
 - *A fully integrated library catalog with complete utilities plus available serials, acquisitions, accounting, circulation with bar coding, and interlibrary loan management; and*
 - *PC and Mac compatible, designed to take advantage of high-speed Internet connections.*
- Improved tools and interfaces to help manage multiple branch libraries, with easily-set restrictions (e.g., staffers see only titles for their own office; serials users see only serials-related menus)
- **SIMA Crossfire™** technology provides instant cross-references to related items while editing and viewing for amazing flexibility and enhanced productivity
